

DESIGN

The modern design of the GH3 blends into any environment and is easy to clean.

CONFIGURABLE

Speed of lifting and descending can be programmed using the handset.

RELIABLE

Ultra strong lifting tape, and high grade Nickel Metal Hydride (NiMH) batteries ensure the GH3 will work harder for longer.

CONSTANT CHARGE

A constant charge battery management and charging system prolongs battery life so that you benefit from a lifetime battery warranty.

GH3 CEILING HOIST

With lifetime battery warranty

The GH3 is a powerful ceiling hoist designed to operate in the toughest environments.

Advanced digital technology combined with a constant charge system, constantly monitors the usage of the hoist, ensuring batteries are maintained in optimum condition.

The GH3 can be specified with integral scales and care lift management and servicing modules, managing the hoist to ensure it is being used and maintained correctly.

The unique constant charge system, combined with the highest quality batteries means that you benefit from a **LIFETIME BATTERY WARRANTY** on the GH3. Ultra reliable, cost-saving and highly effective, giving you peace of mind for years to come.
